

Badger Class Autumn Term 2015

This term Badger Class have been learning about Castles. We really enjoyed our trip to the Norwich Castle Museum where we made pennants, explored the castle's Keep, and sorted castle objects (and tried on a few garments too!) We have learnt lots about life in a castle and some of the people that lived there.

We made shields and decorated them with a coat of arms for the Battle of Hastings. We represented King Harold's army in our re-enactment of the Battle of Hastings. We lost to Squirrel Class when William the Conqueror defeated King Harold!

During Maths and Art week we practised our ruler skills to create 3D illusions in the style of Bridget Riley.

The Circus came to visit the school and we were able to try lots of different circus acts. We tried tight-rope walking, plate spinning, tricks with diabolos, juggling and poi spinning.

'Awe and Wonder' first mysteriously arrived in in our classroom in the form of a locked chest. We had to solve a code to find the key and then investigate the items we found inside. Through 'Awe and

Wonder' we have been problem solving, measuring, reading instructions, describing and exploring different materials and their properties.
