

This term, squirrel class have been enjoying learning about the topic of Castles.

One of our favourite lessons was learning about the Battle of Hastings. We made shields and acted out the battle with the other year 2 classes. Our class was William's army, so we won the battle!

In November we visited Norwich Castle museum to learn about what life would have been like in a castle in medieval times. It was fun learning about what people used to eat, how they slept and where they went to the toilet! We were also able to help one of servants by sorting out which objects belonged to the kitchen, and which belonged to the knights.

During this term the school had a maths and art week. We enjoyed learning about how different artists have used maths in their work by focussing on patterns and shapes. We produced our own work in the style of some famous artists.

Leaf art in the style of Andy Goldsworthy:

circles in the style of Wassily Kandinsky:

`Lozenges' in the style of Piet Mondrian:
