

During the early part of the Summer Term, all the children in Mole Class had to do their SATs! Every child was very proud of themselves for doing so well. However, we also managed to have lots of fun in between!

We had a very exciting Come and Share afternoon when parents were invited to join us in a Mini-Beast Hunt around our lovely school field. We looked carefully at the bugs we found and looked at how many legs they had, how many body parts they had and what colour they were. We also tried to decide what they eat and so if they were carnivores, herbivores or omnivores!

We have been planting seeds with Mrs Tungate outside in our outdoor area as well as weeding and looking after our allotment. We have enjoyed making sure that all our plants have had enough water in the hot weather otherwise they would not grow.

We enjoyed a very fun Multi-Cultural Week where we visited lots of different countries and learnt about where they are in the world and listened to stories from the countries. We created lots of different crafts. In mole Class we visited Ghana and we learnt dances and songs. We went outside and composed our own African music.

4 children from Mole Class went to the UEA for a day of Athletics. They had to run 50m, run 300m, do a standing long jump and a vortex throw. We had a great day!

On the 13th July we had our Sports Day – the best day of the school year! Mole Class were amazing as always. They all tried their best in everything and cheered on their team mates. They ran, jumped, balanced, threw, dribbled a hockey ball, kicked a football and balanced a tennis ball. We then all had a picnic together before the running races. Everyone should be very proud of themselves!

We finished off another fantastic day with a trip to Gressenhall for a Once Upon a Time and looking at how things were done differently in the Victorian Times.

Thank-you Moles for a fantastic 2 years! I wish you all the very best at Junior School. I know you will all be brilliant and shine brightly at whatever you do.

Love Mrs D
