

Dear Children

I hope that you are enjoying your Easter holiday and that you are having fun. I am sorry that I was not able to see you before you left school but I know that Miss Humphrey and all of the other adults did a fantastic job of looking after you and answering all of the questions that you had.

I do not know yet when you will be coming back to school but as soon as I am able to I will make sure that you know when school is starting again. In the meantime, there is lots of learning and activities for you to do on the school's website, which your grownups can find for you. All of the work is perfect for you and remember to challenge yourself. Do lots of reading too, you can read anything, comics, magazines, books, and things on the television. All of this will be ready for you for after the holiday if school is not open.

You can also learn things that are not from the website. Setting yourself some extra learning would be amazing and I would love to see it. I come into school lots and you could save your extra learning to show me.

Please take care of yourself, be safe and look after your family. I will write to you again.

I miss you all but you are in the safest place. We will see you soon.

Mrs. Winter
