

PE Action Plan 2020-2021

July 5th 2020

Responding to the announcement, Youth Sport Trust Chief Executive Ali Oliver said:

“As young people return to school, their wellbeing will be one of the biggest priorities in education. Sport and Physical Education have an essential role to play in children’s recovery, particularly following a period of lockdown which has seen too many either become less active or completely inactive.

“We are delighted that the primary PE and Sport Premium for 2020/21 has been confirmed at this critical time. Many primary schools will be using this funding to improve provision of PE and sport and to develop teachers’ confidence to deliver it, positioning PE and sport at the core of schools’ work to improve pupils’ health, wellbeing and ability to learn.”

My Intent is to improve and develop the provision of PE and sport in the school and to put PE at the core of the school’s work to improve pupils’ health, wellbeing and their ability to learn.

Implementation

- Pupils working at appropriate levels which challenge and support each child individually (less able pupils supported effectively and more able pupils are appropriately challenged) so all groups make clear and evidenced progress.
- The use of effective assessment tools and methods to recognise and inform effective planning with challenging tasks based on pupils’ skills, knowledge and understanding.
- An effective review of learning by teachers and pupils as an integral part of the lesson.
- There is to be consistent praise of positive behaviours which means the pupils have positive experiences and develop a positive sense of wellbeing.
- realPE lessons to be followed closely, ensuring that the cogs are taught effectively (personal, creative, cognitive, social, physical and health and fitness).
- Yoga sessions of 10 minutes are to be taught every day.

Impact

PE will be at the core of the school’s curriculum and the children’s health, wellbeing and their ability to learn will develop and improve. A culture throughout the school of developing the whole child being of paramount importance.
