

# For Class Council Meeting Friday

## 01/12/23

Apologies  
Maya Noah

### Present

Matilda Clay Flora Harley  
Evie Arthur Freya Grace Motayo

### Minutes from last meeting:

Children were mixed with how much they eat at lunch time -  
Children did think it would be better to have cuc and carrot separate  
Children were mostly quite happy with where they are sitting

All classes wanted a special person – we shall start this in 2024  
Mole of the day will be first in line and last the next day  
Mole of the day will sit on a bench in the hall and a special table in the hall with a friend  
Do the jobs including the corridor/wellies outside areas

This week's meeting:

How do your grownups communicate with adults in school?

**Email / talk to them after school / on the weduc app / parents evening**

How do you school grownups contact your families?

**Newsletter phone calls Facebook Facebook Weduc**

Thumbs up or thumbs down for how easy it is easy for you to talk to an adult in school. Any ideas for how we can make it easier to talk to an adult in school / classroom?

Do your grownups ask you about school when you get home? **Yes, and I say nothing. I tell them what I eat.**

What do your families need to know about school – what information do we as a school need to be sharing with them and how

**If we hurt ourselves**

**If we are ill**

**They don't need to know our phonic groups**

**They don't need to know if our teacher isn't there**

**They need to know if they are coming**

This week's big questions:

How do your grown ups communicate with adults in school?

How do you school grown ups contact your families?

Thumbs up or thumbs down for how easy it is easy for you to talk to an adult in school. Any ideas for how we can make it easier to talk to an adult in school / classroom?
